PRICE TWO CENTS

WERE BANQUETED AT GRAND HOTEL

Local Railroad Officials Enjoyed a
Feast in Cincinnati Wednesday
Night.

"GET ACQUAINTED" MEETING

Number of Prominent Officials of B.
& O. and B. & O. S-W. Were
Present.

The meeting of prominent B. & O. officials with Cincinnati and Seymour B. & O. S-W. officials at Cincinnati Wednesday closed that night with a five course banquet at the Grand hotel and sixty-one persons were at the feast. Toasts were responded to by a large number of officials, including Supt. J. C. Hagerty of this city.

General Manager Thompson and General Superintendent of Motive Power Clark of the B. & O. system were there from Baltimore and General Superintendent Gallimore of the B. & O. S-W. and other prominent officials of the B. & O. and B. & O. S. W. participated in the meeting and banquet.

Quite a number of officials and employees in the Seymour offices attended the banquet. They were: Supt. J. C. Hagerty, Road Foreman S. A. Rogers, Chief Engineer F. B. Bachelor, Assistant Engineer Conlyn, Trainmaster F. B. Mitchell, Assistant Trainmaster J. F. Cook, General Foreman W. F. Harris, Superintendent of Yards J. B. Purkisher, Chief Dispatcher Harry Smith, Chief Night Dispatcher Guy Copeland, Samuel Baker, John Mack, Clyde McGowan and Harry DeMann, dispatchers, C. E. Morton, chief clerk to engineer and Howard Adams, chief clerk to superintendent.

A number of the prominent officials went through from Cincinnati to St. Louis this morning and will return this evening to Vincennes where a meeting and banquet for officials of the Illinois division will be held.

The Shannon Lectures.

A large audience listened with enthusiasm last night to Prof. Shannon's lecture on "Present Day Problems and their Solution." This evening he will give his lecture, "Teaching the Truth, When, What and How." The substance of this lecture has been given to thousands of boys and girls as well as parents. In presenting these truths to boys and girls he prefers to have them at separate services. For reasons that will be apparent he prefers to have married people and girls over 12 this evening. The people of Seymour are showing splendid interest this week.

The Little Gem.

I have opened a new ice cream stand on East Second street opposite the interurban station and will carry a complete line of ice cream in cones, or in any quantity. Everything clean and up-to-date. Your patronage is solicited. WILL WOLTERS.

You know if you have ever tried them that the drinks served at our Fountain are the best and purest to be had. The Andrews Drug Co. jyld

SEYMOUR POLICE

Asked to Watch For Men Who Robbed
Vernon Postoffice Wednesday
Night.

Early this morning the Seymour police received word from Vernon that the postoffice in that town was robbed last night. A description of two strangers, a negro and a white man who were seen about Vernon late Wednesday evening, was given and the officers here were asked to watch for them as it was believed they committed the robbery.

The safe in the office was blown open and \$25 in cash and a considerable quantity of stamps were taken. In two or three of the postoffices robberies committed in southern Indiana in the past few months, a negro and a white man were thought to have done the work.

The officers have not located anyone here today answering the descriptions sent from Vernon. The Seymour police, from evidence they have suspicion that the robbery was committed by two white men who at one time lived in Seymour. One of them was here within the past few days and is reported to have joined the other east of here.

SEMI-ANNUAL

Distribution of the Special School
Fund.

County superintendent J. E. Payne has received from Auditor Wacker a report of the semi-annual distribution of the special school fund.

The distribution was as follows: Driftwood township, \$1019.85; Grassy Fork, \$680.71; Brownstown, \$862.49; Washington, \$580.15; Jackson, \$2033.65; Redding \$6.78; Vernon, \$1267.08; Hamilton, \$1706.31; Carr, \$1705.47; Owen \$1637.01; Salt Creek, \$1090.91; town of Brownstown \$1400.37; Crothersville \$708.82; Seymour, \$6241.54.

DATES FIXED FOR BIG EVENT

Annual Soldiers' Reunion and Home
Coming to be Held at Browns-
town in September.

DEDICATION OF COURT HOUSE

May Be One of the Chief Attractions
at the Celebration This
Year.

The sixteenth annual soldiers' reunion and home coming will be held at Brownstown Wednesday, Thursday and Friday, September 20, 21 and 22.

The intention had been to hold it a week earlier but the arrangement was changed on account of a conflict with the Crothersville fair dates.

The program has not yet been arranged but the committee in charge will begin work at once to secure speakers and the attractions for the week. An extra effort will be exerted to make the gathering the greatest ever held in the county seat. All kinds of clean free attractions will be secured and a special effort will be made to induce former residents of the county to come back for the week.

It is possible that the court house may be completed in time for dedication during the week. If so that will be made the big event of the celebration. The building will at least be far enough along to be classed as one of the attractions of the week.

AWARDED DAMAGES

For Death of Brother in Accident in
Hotel.

In June 1910 Otto Ewing was killed in an elevator accident in the Lee Huskins Hotel in Oklahoma City. His sister, Mrs. Laura B. Robertson, of Brownstown and his brother, James B. Ewing of Tunnelton filed a damage suit against the hotel company and by a compromise have been awarded \$1,200 damages.

For Miss Ahlbrand.

The Young Ladies' Society of the German Lutheran church gave a miscellaneous shower Wednesday evening at the home of Mrs. E. H. Ahlbrand in honor of her daughter, Miss Margaret Ahlbrand, whose engagement to Mr. Theodore Markworth, of South Chicago, has been announced. The affair was a well planned surprise. The bride-to-be was placed in the middle of the floor and presented with a large basket filled with many handsome and costly gifts from her friends. Many interesting games were played. A luncheon was served. The wedding will take place on July 13.

White Slave Trade.

Prof. Shannon is selling the latest book on this subject written by Clifford G. Roe. The book deals with conditions as they exist and numerous instances are cited illustrating the methods used in the nefarious business. You can get a copy at the tent any evening or by seeing Prof. Shannon during the day.

MARRIED.

WILSON-ELLIOTT.

A pretty home wedding took place at 1:30 this afternoon at the home of the bride's mother, Mrs. Rebecca Elliott, when her daughter, Miss Erminnie May Elliott became the bride of Mr. Ernest C. Wilson of Sidney, O. Only the immediate relatives and friends were present.

At the appointed time for the ceremony Rev. David T. Newsom, of Azalia, who officiated at the wedding, entered the parlor, followed by the bride and groom and their attendants, Miss Esther Elliott and Urban Kysar. Mrs. Carl Brunow presided at the piano during the ceremony.

The bride wore a white wedding gown and carried a shower bouquet of bride's roses.

After the congratulations were received refreshments were served. Mr. and Mrs. Wilson received a number of beautiful and useful wedding presents.

They left this afternoon at 3:40 for Sidney, O., their future home.

Mrs. Wilson in leaving Seymour, leaves many friends who wish her happiness in her new home.

At Country Club.

Mr. and Mrs. Will Clark and Mr. and Mrs. Leroy Miller gave a picnic supper Wednesday evening at the Country Club in honor of Miss Lucile Miller of Evansville.

Tennis was played until lunch time and later some time was spent in dancing. These present were Misses Lois Reynolds, Ethel Rottman, Luella Toms, Lora Reynolds, Margaret Miller, Louise Shotts and Miss Miller.

At Mineral Springs.

Mrs. C. B. Huffman's Sunday School class of the First Baptist church gave a picnic today at Mineral Springs. They left on the 9 o'clock car with well filled baskets.

Mrs. Katie S. Hopkins, District Supreme Commander, of The Ladies of The Maccabees was in Seymour this week on her way home to Bedford from Wawasee where she attended the State convention of that order. Mrs. Hopkins organized a hive while she resided in this city. There is a membership of 7000 in Indiana and it is the only fraternal insurance organization in the world strictly for women. Mrs. Grace Meredith, state commander, Mrs. Minnie Olds, supreme finance auditor, and Elizabeth Hooker, supreme medical examiner, were guests of honor at the meeting.

John A. Conant, who a number of years ago was widely known in local railroad circles, being superintendent of transportation of the B. & O. Southwestern railroad, died yesterday morning at his residence, 5711 Peabody avenue, Madison. He was sixty-four years of age. For nearly eight months he had been suffering from asthma, and during that period had been able only to a small extent to attend to his duties as village clerk. He resigned that office on May 30.—Washington Democrat.

E. W. Long, who has been teaching school at LaPorte during the past winter, in renewing his subscription to the Republican writes:

"School work closed at LaPorte June 16th. I am now in the employ of Armour Company as chemist. Spent the last year teaching chemistry in the LaPorte High School. Am liking the industrial work fine. Am always glad to get the Republican as it is like getting a letter from home."

A SEYMOUR MAN GETS CONTRACT

Ewing Shields Will Build Brick
Streets in Jasonville, Greene
County.

AN EXCITING COUNCIL SESSION

When Jasonville Bidder Lost Out.
Nearly \$20,000 Worth of
Work.

Ewing Shields of Seymour, has captured another big street paving contract. The Jasonville council has awarded him the contract for paving Meridian street in that city with brick for \$19,160.70.

At the session of the council at which Shields won the contract, there was an exciting time.

The Linton Call says: It was left optional with Mr. Shields whether he uses Brazil or Terre Haute brick.

The meeting was very sensational at times.

It was attended by all the contractors and Attorney John T. Beasley, who represented the Terre Haute Trust Company, that had agreed to buy the bonds.

Mr. Beasley favored Mr. Shepard of Jasonville, cashier of the bank at that place, as the one who should be given the contract, he having bid on the work.

When the council announced that the contract had been let to Shields, Beasley jumped to his feet and gave notice that the trust company, of which he is the president, would not take the bonds unless certain provisions and certain sections of the law were complied with. It was evident that Beasley was sore because Shepard did not land the contract. Beasley's statement caused no little consternation among the members of the council and it began to look like they were up a tree until John A. Riddle, attorney for L. O. Price, of Linton, also a bidder on the work took the floor and told the council his client, Mr. Price would take care of the bonds if he was given the contract. Mr. Riddle made an eloquent plea for Greene county and its products. He advocated the use of Bloomfield brick in the improvement and insisted that it was the duty of the council to patronize home industries when prices were equal, all things considered.

He was followed by E. E. Neal, of the Bloomfield Brick Company, who requested that his product be given a chance and that it be used in the work.

Mr. Shields at this point addressed the council and said that from the tenor of the speeches he had been listening to, that he was under investigation. "If you want to know my financial standing or ability to dispose of the bonds, just telegraph to the following bankers."

A list of such banks was submitted by Mr. Shields, who resumed his seat.

Council adjourned and Mr. Shields will begin work soon as possible on his contract.

MISFORTUNE

Has Been the Lot of Former Jackson
County Family in Missouri.

The family of George Teulker, who moved to Dudley, Mo., about six months ago, have certainly had more than their share of misfortune since they left Jackson county. A letter received from them a few days ago, states that just as they were about done threshing wheat last week, a spark from an engine set fire to a wagon load of wheat, burning it up together with the wagon, and badly burning the horses. The fire also spread to the straw stack and separator, burning both up. About fifty bushels of wheat was destroyed. In addition to this they have been suffering from a severe drouth, badly damaging the oats, clover and hay as well as the growing corn.

It will be remembered that Mr. Teulker, the husband and father, committed suicide soon after they moved out west. The family have many Jackson county friends and relatives who will be sorry to learn of their continued misfortunes.—Brownstown Banner.

Automobile Runs Away.

Charles Hess and three companions had a narrow escape from serious injury Tuesday evening near Cortland. He is a son of Frank Hess and was driving his father's machine. Coming along the Cortland road at a good speed he lost control of the machine which immediately proceeded to leave the road, climb a barbed wire fence into a field, turn about and run out across the road again. In doing so the machine all but turned turtle. Fortunately none of the occupants of the machine were injured but the machine was damaged fifty or sixty dollars.

The Mothers' meeting Wednesday afternoon at the home of Mrs. Teckemeyer was largely attended. Her daughters furnished delightful music on violin and piano. Prof. J. W. Shannon gave interesting talks on the "Boy's Room," "The Girl and her Mother" and also touched on pledging young people in the home. These meetings of mothers are always helpful and this was a most successful one.

Farewell Given.

After the regular meeting of the Knights and Ladies of Security Wednesday evening a farewell social was given for Mrs. Mae Moore who goes to Anderson this week for future residence. About one hundred members of the order and members of their families participated in the evening's pleasure. A banquet was given and there was an excellent program of talks, recitations and music. The evening closed with dancing.

The proposition to establish a stone
pile for the employment of prisoners
serving time in the county jail is rapidly
gaining in favor here and over
the county and is given a substantial
boost by the following resolution ad-
opted by the Law Enforcement Leag-
ue of Brownstown:

"Resolved, That it is the sense of
the Brownstown Law Enforcement
League that the Board of Commis-
sioners of the County of Jackson
should exercise the statutory power
vested in it by providing for the work-
ing of prisoners committed to the
county jail."

The Seymour council and the coun-
ty commissioners should take the
matter up and act. In doing so they
will undoubtedly meet with the gener-
al approval of taxpayers. At pres-
ent the county is furnishing good free
board to about a dozen men and
among the number are two Bartholom-
ew men who have, it is said, long
been idling their time away along the
river. Now they are idling their time
away at Jackson county's expense.

Their sentences were justified and
necessary but while the county's
guests they should be given entertain-
ment that will not encourage future
law violations in Jackson county. In
the jail are several men from Sey-
mour and some of them have been
sent there many times and their im-
prisonment is no hardship and serves
no good purpose further than keep-
ing them out of mischief temporarily.
Their law violations cannot be ig-
nored and the only sensible course
left is to give them work which will
make them more careful of their fu-
ture conduct. One of these men who
is at home at the county prison, while
enjoying liberty as a trusty, even
came over to Seymour for a little ex-
cursion a few days ago. Many a
law-abiding citizen who works hard
six days out of the week the year
through is paying taxes that go to-
ward paying the board of worthless
men who refuse to work while out of
jail and whose presence in the com-
munity is an expense and a nuisance.
Make them work while in jail at least
and they will either stay out or
earn their board while there.

The commission form of city gov-
ernment is attracting increased at-
tention through the country. The
interest in the subject has been grow-
ing quite rapidly in the last two or
three years. The successful working
of the plan in Galveston, Texas, Des
Moines, Iowa and other cities has
prompted many municipalities to con-
sider seriously its adoption. It has
been noteworthy for many years that
the present form of government for
most of our cities seriously at fault
in many respects. Under the present
system it is possible to charge cor-
ruption and it is possible for corrup-
tion to exist in ways which the people
are unable to reach. The system of
shifting responsibility from one offi-
cer to the other is another difficulty
of the present form by which one man
who fails to do his duty as an officer
often evades the responsibility. Not
only does he prevent honest and well-
meaning officials from carrying out
their duties as officers, but he forces
them to share with him the odium
which follows non-enforcement of the
law. Under the commission form of
government, as we understand it, each
man at the head of the department is
held responsible directly to the people
for the duties assigned to him and is
subject to recall at any time if he
fails to carry out his duties to the
municipality.

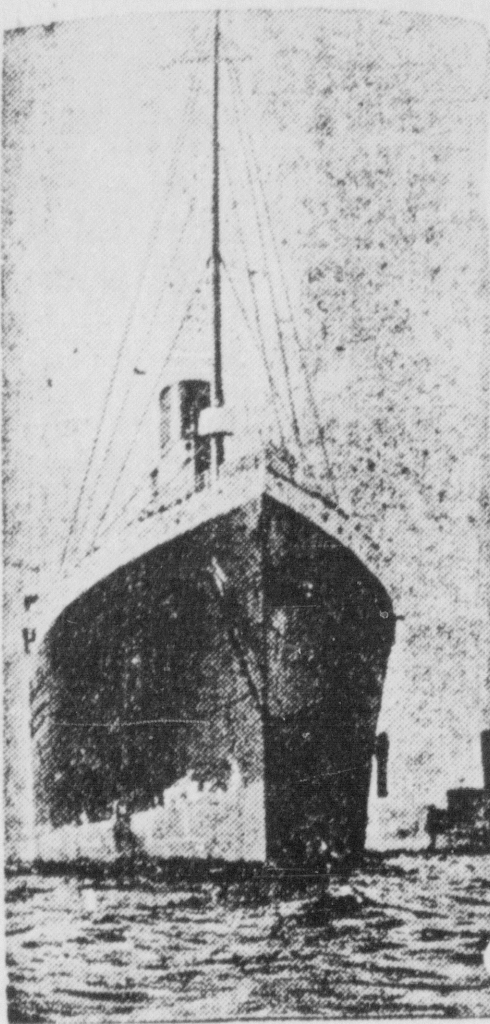

The Republican has secured a series
of short articles discussing this
new form of city government and
these will be presented as opportunity
offers, one of them appearing this
evening on page seven. Every citizen
should be interested in his city gov-
ernment and these articles will prove
not only interesting in showing how
the experiment has worked in other
cities, but profitable also as a possi-
bility for the future management and
control of our own city.

A Bartholomew county saloon
keeper who had sold liquor for thirty
years, finally died from drinking stale
lemonade. It is to be hoped that this
will not be used as an argument to
stick to whiskey. It is possible that
the liquor he sold during his thirty
years in business led to more than
one death, indirectly.

Mr. and Mrs. Henry Prince of
Brownstown were here Wednesday
evening returning from Paris Cross-
ing where they attended the wedding
of Miss Beatrice Lett of that place
and Charles J. Prince of Indianapolis.

the Eyes of New Yorkers.

New York, June 29.—The departing

day afternoon the biggest throng that
ever has waved good-bye to any liner
here. There was not a berth left, the
largest number of cabin passengers
that ever left this port on a single
ship having boarded the vessel for
England. The Olympic started the
second half of its maiden trip with
2,205 persons in its three cabins.

REAPPORTIONMENT
BILL REPORTED OUT

Senate Will Vote On Measure
to Enlarge House.

Washington, June 29.—The senate
committee on census has ordered fa-
vorably reported to the senate the
house bill authorizing a reapportion-
ment of the country for the election of
members of congress, based on the
population figures of the latest cen-
sus. The bill leaves the member-
ship of the house at 433, just where
the house put it. The effect of this
bill will be to reduce the membership
of none of the states, but to increase
that of many of them, but it is not
considered likely by friends of the bill
that it can pass. Some of the senators
opposing the bill admit their objection
is based on the fact that the legisla-
tures in their respective states are
Democratic and they fear gerrymand-
ers. They expect by postponing the
passage of the bill that a Republican
legislature may be elected meanwhile
and a fairer apportionment from the
Republican viewpoint be had. This is
the ground of Senator Root's opposi-
tion. Senator La Follette is said to be
hostile because of the great advantage
the proposed reapportionment would
give to such states as New York and
Pennsylvania in national conventions
and the electoral college. Mr. La Fol-
lette is a candidate for president. In
the meeting of the committee there
was a general expression of criticism
of the enlarged membership of the
house. A majority of the members
feel that the house will be too large
with 433 members and may be un-
wieldy.

Would Cost Too Much.

Indianapolis, June 29.—Governor
Marshall has refused to issue an order
for the Second regiment of the Indi-
ana national guard to participate in
the "safe and sane" Fourth of July
parade. The order would have cost
the state \$3,000.

Deafness Cannot be Cured

by local applications, as they can-
not reach the diseased portion of the
ear. There is only one way to cure
deafness, and that is by constitu-
tional remedies. Deafness is caused by
an inflamed condition of the mucous
lining of the Eustachian Tube. When
this tube is inflamed you have a rum-
bling sound or imperfect hearing, and
when it is entirely closed, Deafness is
the result, and unless the inflamma-
tion can be taken out and this tube
restored to its normal condition,
hearing will be destroyed forever:
nine cases out of ten are caused by
Catarrh, which is nothing but an in-
flamed condition of the mucous sur-
faces.

We will give One Hundred Dollars
for any case of Deafness (caused by
Catarrh) that cannot be cured by

Curious Labrador.

Dr. W. T. Grenfell describes Labrador as a land still hardly known beyond its borders. The cold current that flows along its shores from the north dominates its climate, and notwithstanding that it is considerably farther south it receives less continuous sunshine than Alaska, because its summer is shorter. The coldness of the soil and the dryness of the winds stunt many of its plants to such a degree that a larch growing at the southern end of Labrador which showed thirty-two annual growth rings was only nine inches tall, and its trunk was but three-eighths of an inch in diameter. Mineral deposits seem to be abundant, but prospectors have been able to stay but for short periods.

Fatal Finger Rings.

Count Zborowski when killed in a fearful motor accident at Nice in 1903 was wearing a fatal ring which had belonged to his family for four generations. In each of these generations the head of the family had worn the ring and each had met with a violent death.

Still more amazing is a story told by the late head of the Paris morgue. Five times within his experience dead bodies brought to the morgue were found to be wearing a certain ring easily distinguishable by its strange design. It bore in eastern characters this legend: "May whosoever wears this ring die a miserable death." M. Macen, late chief of the Parisian police, vouches for the truth of this.

The contest over the will of Mrs. Ole Bull, widow of the famous Norwegian violinist, which has engaged the attention of the probate court at Bedford, Me., for some weeks past, has been settled out of court.

ANNOUNCEMENT.

The Republican is pleased to announce that Dr. Pickhardt, a member of the Spauldust Institute staff, of Indianapolis, continues to reside in Seymour that he may render more efficient osteopathic service. This will be most welcome news to the friends and patrons of Osteopathy, because it enables them to secure osteopathic treatment in emergencies for acute troubles, as well as in chronic cases.

Seymour is to be congratulated on the character of the osteopathic services made available to our citizens by the reason of a resident osteopath.

To serve the best interests of their growing practice treatment will be given at night by appointment to those whose work prevents them from coming during regular office hours.

Nature's own methods are knocking at our door. Here lies our opportunity to get well if we avail ourselves of the benefits that come to mankind through the skillful application of Osteopathy. Now is the time to take that osteopathic treatment you have been talking about, here at home, and under the most favorable circumstances. Phone 557, day or night.

GOMPERS GETS BACK AT JUDGE

Labor Leader Severely Criticizes Wright.

SPIRIT OF VINDICTIVENESS

It is Thus That the President of the Federation of Labor Characterizes the Action of Justice Wright of the District of Columbia Supreme Court in His Attitude Toward the Contempt Case.

Indianapolis, June 29.—To decide on a plan for raising money for the defense of John J. McNamara and James W. McNamara, who are charged with complicity in dynamite outrages at Los Angeles, leaders of the American Federation of Labor and of international unions, are in conference here. Samuel Gompers, president of the A. F. of L., arrived from Washington accompanied by Frank Morrison, secretary of the A. F. of L., and Thomas F. Tracy and G. P. Foster of the executive council of the federation. Mr. Gompers refused to discuss the McNamara case or the means that may be used to raise the defense fund. He talked freely on the contempt case at Washington, directed against himself, John Mitchell and Frank Morrison. Referring to the action of Justice Wright of the supreme court of the District of Columbia in appointing a committee of attorneys to investigate the action of the labor leaders in the contempt case and the recent finding of the committee against the labor men, Gompers said the whole proceeding showed a spirit of "personal vindictiveness on the part of Justice Wright."

"Any judge with a decent regard for fairness and impartiality would have allowed the case to remain in the position in which the supreme court of the United States placed it after it had reversed his decision," said Gompers.

"Justice Wright, in pursuing this matter, was displaying his personal spleen. He had previously exhibited it when he rendered his decision, which later was reversed. He spent two hours and a half in exhorting Mitchell, Morrison and myself, denouncing us as though we were footpads, housebreakers or highwaymen."

MUST SERVE TIME

Clerical Error in Commitment Does Not Invalidate Sentence.

Jeffersonville, Ind., June 29.—Judge Harry C. Montgomery refused a writ of habeas corpus, applied for by Fred Wilson, inmate of the Indiana reformatory, in an effort to obtain his release. The petition was on the ground that records of the Clinton circuit court did not show Wilson was sentenced to the reformatory. The court held this merely a clerical error, as Wilson's plea of guilty carried a penitentiary sentence. Notice of appeal to the supreme court was given. Wilson has served three and one-half years of the maximum of eight years for petit larceny.

ADVANCE PAY CHECKS

They Are Not Illegal, According to Court's Judgment.

Jasonville, Ind., June 29.—The case against the Green Valley Coal company for the alleged issuing of unlawful money was tried in Justice Rogers' court and the company was acquitted. The specific charge is that miners are permitted to draw checks or "flickers" before their regular pay day, and this amount is deducted from their pay. The checks are accepted for merchandise. The bookkeeper was arrested for issuing these checks. Prosecutor Irwin said that he will refile the charges in the circuit court. The company will appeal any adverse decision.

MADE SETTLEMENT

Traction Company Pays Kingsland Wreck Victim \$17,500.

Fort Wayne, Ind., June 29.—The Fort Wayne & Northern Indiana Traction company has made a settlement with Mrs. W. D. Burgan of Bluffton for the death of her husband, and injuries to herself in the Kingsland interurban wreck last September. She receives \$17,500. Mr. Burgan was instantly killed and Mrs. Burgan was in a condition so critical that for weeks she was not informed of the death of her husband.

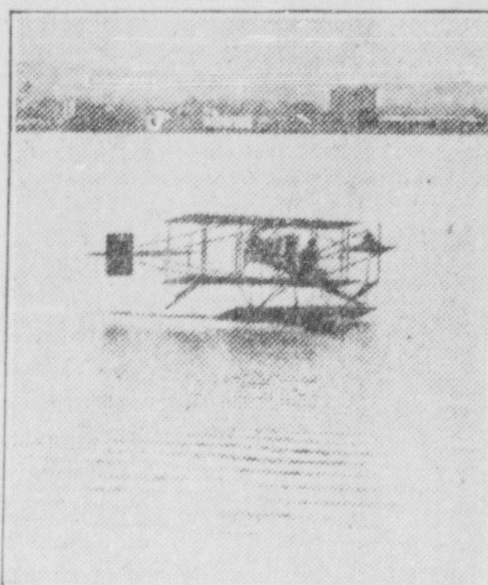

Voting Machine Bids Held Up.

South Bend, Ind., June 29.—The commissioners of St. Joseph county postponed the opening of bids on fifty voting machines because of lack of competition. The commissioners decided to prepare new specifications and receive new proposals, which will be opened on Aug. 8.

Waiting Applicants Received.

Fort Wayne, Ind., June 29.—Superintendent Carroll has accepted sixty waiting applicants from over the state for admittance to the Indiana State School for Feeble-Minded Youth, accommodations having just been made possible by the completion of a new cottage for women.

CURTISS BOATING IN HIS NEW AEROPLANE

Glenn H. Curtiss, in his new hydro-aeroplane will be at Winona Lake July 14, and will demonstrate for the first time to the people of the inland the machine that is both boat and airship.

Such demonstrations have been made rarely even on the seacoast, and the appearance of Curtiss at Winona Lake July 14 is exciting a great deal of attention among the aeronauts and aeroplane pilots.

MAY ADD LAURELS

GLENN H. CURTISS WILL DEMONSTRATE HYDRO-AEROPLANE TO AN INLAND CROWD.

SPECTATORS EXPECT THRILL

Air-Boat Machine Will Be Used July 14 at Winona Lake, Flights Being Made From Surface of Water.

It is a peculiar fact that while some military experts are building dreadnaughts of immense weight, other military experts are building the machines that will destroy the dreadnaughts, and the destroyers are constructed of the lightest possible material that will stand the strain. It is to the light machine rather than to the ponderous battleship that naval authorities are turning.

The latest machine for the use of warriors is the hydro-aeroplane, the combination of boat and airship. On both the Pacific coast and in the Gulf of Mexico this machine has been tested, and in both cases it was found to be efficient.

Just what the hydro-aeroplane is has defied the imagination of inland folk since the date when Glenn H. Curtiss flew from a point on the Pacific coast to the battleship Pennsylvania, had lunch with the officers, and then flew back to land. The hydro-aeroplane, however, is very simple, even if it is new.

The upper part of it is the Curtiss biplane. To the lower part of this, attached strongly with skeleton work, is a pontoon or boat. Thus, when the flyer descends from the air to the water the pontoon strikes first, and its buoyancy keeps the machine from sinking into the surface while the double wings of the aeroplane balance the craft. With the boat-air machine it is possible to travel on the surface of the water, to rise from the water into the air, and to descend again from the air to the water surface.

This year, for the first time, the hydro-aeroplane will be seen inland. Winona Lake assembly has contracted with Glenn H. Curtiss to bring his famous hydro-aeroplane to Winona lake and to give exhibitions of its use. Mr. Curtiss required a fabulously large amount of money, but Winona assembly paid this in order that the people of the middle west might have the opportunity of seeing the newest form of locomotion or air and water navigation.

The date set for the Curtiss demonstration of the hydro-aeroplane is July 14. The demonstrations will be made on Lake Winona, a beautiful expanse of water, two miles broad and three miles long. The shores are well adapted to the purposes of both aviator and the spectators, and thousands can stand in the natural amphitheaters and view the flights, while Mr. Curtiss in turn will have the whole lake for his new and strange aquatic feats.

The newness of the hydro-aeroplane and the practical impossibility of giving hydro-aeroplane demonstrations away from the sea shore have made the Curtiss flights at Winona lake July 14 of especial interest and the prophecies of newspapers and magazines have been that Mr. Curtiss will give the Winona crowds some thrilling exhibitions, and perhaps add to his past records for brilliant work as a motorist on land, on water and in the air.

Meetings Planned for Winona.

Many special schools, conferences and conventions are planned for the 1911 season at Winona Lake, Ind., and this community has an interest in some of them.

The first of these was the Summer School of Missions, June 22 to 29. Then comes the Indiana Photographers' convention, July 10 to 14. The Young People's conference, for younger members of the Presbyterian churches will be held from July 13 to 20.

HOW COMMISSION PLAN WORKED IN HOUSTON.

A Success Despite the Retention of Several Old Officials.

Shortly after the commission plan of municipal government was seen to be such a pronounced success in Galveston the nearby city of Houston adopted it in modified form. The chief departure in Houston was that the mayor, who is one of the five commissioners, was given enlarged authority. His power of appointment and dismissal was made practically supreme. A restricted form of the referendum was also adopted. As in Galveston, the commissioners were elected from the city at large, wiping out ward boundaries, likewise ward politics.

The result of the experiment was gratifying in the extreme. Under the old system Houston had about the average municipal government. The city was failing to meet expenses, claims against it being hawked about at 20 per cent discount. The new plan has been in force about four years. Nearly a half million of indebtedness has been paid, one and one-half millions have been devoted to municipal improvements, the tax rate has been reduced 3 mills on the dollar, the price of gas has been brought down from \$1.50 per thousand feet to \$1.15, the cost of arc lights has been reduced from \$80 to \$70 per year, new bridges have been built and old ones improved, the waterworks have been purchased by the city, city credit is restored, fire protection has been improved, three new schoolhouses have been built, a fifteen acre park was purchased, the paving is better, bickering disappeared from city affairs, and prosperity and progress resulted, and generally the results were as satisfactory as in Galveston. This is all the more remarkable for the reason that there was little change in the personnel of the city government. The mayor and some of the councilmen, as the commissioners are called, were continued over from the old regime. It was the new system, therefore, that wrought the miracle.

NEW AND OLD PLAN COMPARED

Parallel Column Shows Advantages of Commission System.

To gain some faint notion of the superiority of the commission form of city government over the old regime of "boss" ward and partisan misgovernment, glance at a few of the features of the two systems placed side by side:

THE OLD PLAN.

Government by a mayor, some minor elective officers and a debating society called a "council."

Each officer has power to block the other officers. They call it "checks and balances." Each officer blames the next if you complain.

Needs a "boss" to hold the ramshead together.

The citizen has to "go into politics" at the sacrifice of his earning power before he counts.

Citizenship is a learned profession.

Government by politicians instead of government by the people—oligarchy instead of democracy.

Petty officers elective—too many officers elective—resulting in ambush ballots.

Good officials getting no credit.

Bad officials safely lost in the shuffle and getting no personal blame.

THE NEW PLAN.

Government by a single compact commission elected at large. No other elective offices.

Nobody they can blame but themselves if you complain.

No lost motion—no pulling and hauling. Conspicuous responsibility.

Each elective officer a shining mark for criticism; hence sensitive responsive government.

A short ballot. Every citizen easily masters his job on election day, makes up his own ticket and knows what he is doing.

Politicians out of business—no need for them.

No confusion, no obscurity, no chance for rascals to slip through at election time without detection.

Nonpartisan ballot. Nominations all by petition.

The people, without any moral revolution or sacrifice of earning power, sitting comfortably in the boss' chair.

Officials give good government because that's the way to keep popular.

Initiative, referendum and recall for emergencies.

WORKS WELL IN SMALL CITIES

Splendid Results of Commission Plan in Texas Town.

Denison, Tex., affords a good example of the working of the commission plan of government in a small city. Denison used to be a typical frontier town, wide open as all outdoors. It is asserted that it was a badly governed city where pure politics was unknown and where public spirit was dormant. No street could be paved without the consent of the property owners, and as they feared to trust their funds with the existing government the streets went unpaved.

When Denison got a chance to say whether it preferred a continuation of the old system or the installation of a new one the verdict was strong in favor of the change. The first thing done was to elect trustworthy men to manage the affairs of the city. The awakened public spirit began to show itself in all kinds of plans for improvement. The wide open element left town under the clean city regime, the streets were paved, a self supporting municipal water system was established, and in other ways the citizens proved that they could make a good government when they were permitted to use the proper kind of machinery.

In Denison, as in nearly all other small cities, there are only three commissioners, one of whom bears the title of mayor and draws a salary of \$1,800, while the other two get \$1,500 each. All other officials are chosen by the commission, being nominated by the mayor and confirmed by the whole commission.

Woman's World

Vast Responsibilities Develop the Business Talent of Mrs. Harriman.

MRS. E. H. HARRIMAN.

The announcement that Mrs. E. H. Harriman, widow of the railroad king, contemplates devoting many of her late husband's millions to the founding of a vast university in his memory again directs attention to one of the most remarkable women of her time. Although no longer a young woman and with no previous business experience, on the death of her husband, who left her executrix of his will, she took hold of his vast interests and has managed them in a manner that has commanded the respect and admiration of all associated with her.

She has controlled a street railway and lighting plant and a hotel in Georgia, a gold mine in South Dakota, an iron mine, a dairy farm, a bank and a road building company in New York, a blast furnace in Pennsylvania and lesser enterprises elsewhere. In addition to which she has attended councils in Wall street, directed an army of men at Tower Hill and performed the duties of a mother to her children.

SUMMER WRAPS.

Silk and Lace Scarfs a Revival of Victorian Styles.

Among other early Victorian fashions which are coming back to us is the wearing of the short shoulder wrap which is known as the scarf. The one in the photograph resembles what was known several years ago as the dolman. It is made of silk and trimmed with a narrow plaiting. The rule in wearing the scarf is that it must harmonize with the dress and match the color of the hat. The scarf may be of

NEW SILK SCARF.

lace net or any diaphanous material and is often more for beauty than for use.

Among the attractive lingerie novelties of the year is a coat made of eyelet embroidery done in soft linen or batiste and mounted over a colored lining of surah or satin, taffeta or pongee. All the well known brilliant colors of the day are used for the lining, although some of the smart ones use all white and put on a deep hood collar of colored silk, with a tassel to match at its end.

These coats are long, about to the knees, and have wide sleeves which come below the elbow and slope off to a point. They may have a collar and cuffs of heavy lace if one desires, but they are exceedingly pretty when left without any special ornament.

Worn over a thin, soft gown with a flat garden hat they combine to make a most artistic costume.

TRUTH ABOUT THE MAINE WILL BE KNOWN SHORTLY.

After Thirteen Years In Havana Harbor Ruins Are Brought to Light.

The truth as to the cause of the explosion which wrecked the battleship Maine in Havana harbor on Feb. 15, 1898, and cost 259 lives is soon to be known. The work of bringing the ruins to light has progressed to a point where it is only a matter of days until the experts can explore them.

When the water in the cofferdam employed in baring the wreck had been lowered to a depth of seven feet a superficial observation was made possible, and steel ribs bent apart, decks upheaved and hurled far from their original position, bulkheads crumpled like sheets of paper and apparently inextricable and hardly identifiable masses of construction material proved that the shattering of the hull of the battleship was far greater than has been supposed.

At the time of the explosion the opinion was general that the Maine had been sunk by a Spanish mine in retaliation for the efforts of the United States in behalf of Cuba, then an oppressed Spanish possession. Now, however, the popular belief is that Spain had nothing to do with the disaster.

Spanish and American commissions had divers examine the wreck. The Spanish commission reported that an internal explosion sank the ship. The American conclusion was that the ship was destroyed by the explosion of a submarine mine, but did not fix the responsibility.

It took a long while to get congress to act on the proposition to raise the wreck, and this delay was responsible for the suggestion that there was something to conceal in connection with the battleship's fate. At length congress showed that it wasn't afraid, and the facts so long hidden in Havana's muddy harbor are about to become known.

The steel foremast of the old battleship, which weighs about ten tons, will be shipped to Governors Island. The remainder of the wreck will be given an honorable sea burial.

There are sixty-three bodies still in the wreck, and the Cuban authorities have made preparations to receive them as fast as recovered. They will be taken to Cabana fortress, where they will be placed in coffins, and later will be removed to the collier Leonias for transfer north.

FINDS KISSING MICROBE.

Chemist Asserts He Can Tell All About One's Osculations.

Edward Reif, a Pittsburg research chemist, declares that he has discovered the real kissing germ—a microbe peculiar to persons, particularly to women, prone to much kissing.

That he can tell by a microscopic examination of a tiny portion of saliva from a woman's lips whether she has ever been kissed by a man and approximately how often is the astonishing declaration made by Mr. Reif. This applies equally to men, he says.

Any woman who brings to Mr. Reif a teaspoon that has touched the lips can find out if her husband has been kissing other women.

"The microbes of each person have a different characteristic," says Mr. Reif. "A man who does much kissing has big microbes, the woman who does much kissing has big microbes, and so on."

Mr. Reif, who is a University of Pittsburg graduate, discovered the strange microbe accidentally. As to the actual and material results from Mr. Reif's discovery there is only one drawback—the cost of examination is a bit expensive, about \$10.

BUYS HOUSE FOR BABY.

Roof Playground and Zoo For Child Two Months Old.

Russell Hopkins, consul general of Panama, has purchased a house in Fifth avenue, New York, for his baby son, John Randolph Hopkins, who was born two months ago. The baby's grandmother, Mrs. Lawrence, widow of Dr. J. J. Lawrence, said she would spend \$25,000 in furnishing a suit of five rooms in the new house for her grandson.

Mr. Hopkins wished to purchase Mrs. William B. Leeds' house and offered \$250,000 for it, but it was refused.

The roof of the house will be covered with a steel wire cage and half converted into a playground. The other half will be used as a small private zoo.

RENOUNCED A TITLE.

Mrs. Arthur Scott Burden Prefers to Remain an American.

© 1911, by American Press Association.
MRS. ARTHUR SCOTT BURDEN.

One of the most interesting and original young matrons in New York society is the beautiful Mrs. Arthur Scott Burden, formerly Miss Cynthia Burke Roche, daughter of the famous beauty, Mrs. Fanny Burke Roche, and the Hon. James Boothby Burke Roche, heir presumptive of Baron Fermoy of the peerage of Great Britain and Ireland.

One of the very original things which young Mrs. Burden has done in the past is formally to renounce all allegiance to the British government, of which she was born a subject. As her father or brother is certain eventually to become a baron of the realm, with the reversion to herself of the right to bear the title of honorable, this is all the more remarkable in an age when fashionable American women are so enamored of titles that they are willing to marry almost any dilapidated pauper who can attach a title to his name.

The union of the lovely Mrs. Burke Roche and her Irish husband was an unhappy one, and no doubt this fact and her grandfather's well known aversion to foreigners may have influenced Mrs. Burden, although she is known as a young woman with well defined opinions of her own. She is particularly devoted to outdoor sports, and, with her husband, she was one of the most interested and intelligent spectators at the recent international polo games, where this photograph was taken. Her gown, which is in the extreme of the mode, created a sensation. Mrs. Burden is said to be a peerless horsewoman, capable of holding her own on the back of the most spirited or unruly horse. Golf, tennis and all the sports of the fashionable set have found in her an ardent champion. As a whip few women excel her, and as a swimmer she might wrest the title of society champion from the fair "Bobby" Sears of Boston.

NOVEL NEW CHAPEAU.

It Is of Turkish Toweling and Is Called the Wash Rag Hat.

The wash rag hat, as it is called, is one of the most dashing creations that fashion designers have put upon the market this season. Turkish toweling is the material used as the foundation

for this fetching chapeau, which is now to be seen upon the counters of the fashionable shops. A wire frame, usually one of the round crowned type, is covered with the toweling, a fine quality in pure white or ecru being chosen. The hat brim is then faced with velvet, and a bow of the material is then knotted at the front or sides. Royal purple velvet was used in trimming this hat. Blue makes a handsome decoration, while black is perhaps the most harmonious of all.

GEORGE A. EARL AND ROOSEVELT

Financier Takes a Slam at
the Colonel.

SUGAR TRUST CASE HEARING

Man Who Made Effort to Get the Government to Go After Sugar Trust in 1906 Tells the Congressional Committee the Details of His Struggle With the Administration, Much to the Delight of Mr. Hardwick.

Washington, June 29.—Financier George A. Earl, jr., of Philadelphia told the Hardwick special committee of the house of his repeated and unsuccessful efforts in 1906 to induce Mr. Roosevelt and Attorney General Bonaparte to proceed against the sugar trust after the wrecking of the Real Estate Trust company of Philadelphia by the American Sugar Refining company. The Democratic members of the committee enjoyed the testimony hugely, for he took a few slams at Mr. Roosevelt, spoke slightly of Mr. Bonaparte's legal ability and told how all proceedings against the sugar trust had been dropped, evidently on orders from the highest governmental source, after Attorney General Purdy had told Earl that those responsible would be sent to jail. The committee displayed considerable interest in two letters written by Earl to President Roosevelt, one on Oct. 1, 1906, and another on Oct. 27 of the same year, urging the president to proceed against the American Sugar Refining company.

Preference for "Large Game."

In one of these letters Earle says, speaking of the prosecution he desired begun: "It has often happened that you have been able to punish the oppressors of the public, but there has really been no occasion where there has been substantial evidence against so many of the first rank, and I totally misjudge your character if you have lost your preference for 'large game.'"

When Mr. Earl, who was reading the letter to the committee, reached the words "large game," he stopped, smiled around the table and remarked, "But he had lost the preference."

The committee smiled with Mr. Earl and Chairman Hardwick appeared so happy at the direction the testimony had taken he slapped a brother Democrat on the shoulder. Mr. Earl rehearsed the history of the Pennsylvania Refining company, which had been built by Adolph Segal to compete with the sugar trust. He told how the trust had loaned Segal money on the stock of the Pennsylvania Refining company which he was holding as trustee, and how the American Sugar company then elected its own trustee of the Philadelphia plant and dismantled it. Then Earl spoke of his appointment as receiver for the Real Estate Trust company, of his efforts to straighten out the tangle, and of the indictments of the sugar trust directors for conspiracy by Attorney General Wickersham after the Roosevelt administration had failed to touch the case.

CITED FOR CONTEMPT

Mrs. McManigal Ordered to Appear Before Judge Bordwell.

Los Angeles, Cal., June 29.—Mrs. Orlie McManigal must appear before Judge Bordwell and answer a citation for contempt of court, based on her refusal to answer certain questions before the grand jury investigating the Times explosion. The questions will be asked her again in open court, and if she still refuses to answer, she may be committed to the county jail for contempt.

McManigal declared that the charges he has made against the McNamaras are true and that he will not repudiate his confession. He asserts that sympathizers have won his wife away from the prosecution by paying her money and giving her assurances of the future.

They're Not Afraid of Ghosts.

Sacramento, Cal., June 29.—Colonel Robert F. Ames of New York and Mrs. Madeline Janney, widow of Lieutenant Janney, who shot and killed himself in Manila about a year ago, have been married here. It was because of relations between Mrs. Janney and Colonel Ames that Lieutenant Janney killed himself.

STATE DEPARTMENT MUST GIVE DETAILS

Griffiths' Hands-Across-the-Sea
Speech Up Again.

Washington, June 29.—The house of representatives committee on foreign affairs has put John L. Griffiths of Indianapolis, consul general at London on the rack for his Pilgrim day speech at the Savoy hotel dinner in London late in May. The committee has reported the resolution offered some time ago by Representative Hammill of New Jersey asking the state department to report what steps had been taken to discipline Mr. Griffiths for the speech in which he is reported to have talked about a future alliance between the United States and Great Britain.

Mr. Griffiths was asked by the state department some time ago about the matter when Irish-American societies began sending in protests because of the consul-general's "Hands-across-the-sea" speech.

German-American societies also took exception to the proposed alliance, which was declared to be directed at Germany. The state department will probably respond to the resolution if it passes by transmitting Consul General Griffiths's letter. It is likely the resolution will provoke sharp debate in the house before it passes, and Mr. Griffiths's friends will have an opportunity to defend him.

WO'T STAND FOR IT

Wheeling Doesn't Want to Hear Billy Sunday's Billingsgate.

Wheeling, W. Va., June 29.—The city council has passed an ordinance imposing a fine on any person who uses objectionable language in a public address. Councilman P. F. Heberstick, who offered the ordinance, said that it was intended to curb the vocabulary of Billy Sunday, the sensational evangelist, who has been engaged by Wheeling churches to open a religious campaign in this city.

Curious.

"Are you fond of babies?"
"Sometimes."
"When's that?"
"When I want to be amused. Then it's fun to try and see what'll make them yell the loudest."

Dad Might Fail.

"Do you believe in long engagements?"
"That depends."
"Upon what?"
"Whether she has a father or not."

Need of Haste.

"I am in a hurry."
"Why?"
"I heard a noise."
"What did it sound like?"
"Like a dollar."

Explained.

"There are always lots of suckers."
"That explains it."
"What?"
"Why some men like to fish."

Very Clever.

"He is a clever fellow."
"Where do you see it?"
"He generally permits his wife to do things his way."

A train traveling through the West was held up by masked bandits. Two friends, who were on their way to California, were among the passengers.

"Here's where we lose all our money," one said, as a robber entered the car.

"You don't think they'll take everything, do you?" the other asked nervously.

"Certainly," the first replied. "These fellows never miss anything."

"That will be terrible," the second friend said. "Are you quite sure they won't leave us any money?" he persisted.

"Of course," was the reply. "Why do you ask?"

The other was silent for a minute. Then, taking a fifty-dollar note from his pocket, he handed it to his friend.

"What is this for?" the first asked, taking the money.

"That's the fifty dollars I owe you," the other answered. "Now we're square."—July Lippincott's.

After The Grippe

"I am much pleased, to be able to write and thank you for what Cardui has done for me," writes Mrs. Sarah J. Gilliland, of Siler City, N. C.

"Last February, I had the Grippe, which left me in bad shape. Before that, I had been bothered with female trouble, for ten years, and nothing seemed to cure it.

"At last, I began to take Cardui. I have taken only three bottles, but it has done me more good than all the doctors or than any other medicine I ever took."

Take CARDUI

The Woman's Tonic

For the after-effects of any serious illness, like the Grip, Cardui is the best tonic you can use.

It builds strength, steadies the nerves, improves the appetite, regulates irregularities and helps bring back the natural glow of health.

Cardui is your best friend, if you only knew it.

Think of the thousands of ladies whom Cardui has helped! What could possibly prevent it from helping you?

Remember you cannot get the benefit of the Cardui ingredients in any other medicine, for they are not for sale in any drug store except in the Cardui bottle. Try Cardui.
